STATEMENT BY
MAYOR ROBERT E. ARMSTRONG

RE: Bill No. X-78-11-49
Annexation Ordinance No. X-03-78 (as amended)

The growth and the future of Fort Wayne are too important for the Mayor to allow politics to influence the passage of this ordinance.

This administration was requested by City Council to meet with selected neighborhoods and to bring about their annexation into the city amicably and without remonstrances and lengthy court battles. For two long years, we have worked out a compromise with the residents of Oakbrook Park. It is essential for the future of this community that we move beyond this one small annexation; Oakbrook Park represents 130 people and there are 40,000 more who live in the suburban area surrounding Fort Wayne. Time is crucial, and is imperative that we recapture the shifting tax base by means of annexation.

Therefore, I shall reluctantly sign this ordinance. I am hopeful that the citizens of Oakbrook Park will not remonstrate against this annexation, and I urge our City Council members, elected by the City of Fort Wayne to represent its best interests, to consider the needs of Fort Wayne as its first priority and to amend this ordinance so that annexation becomes effective on March 15, 1979, the date originally proposed and agreed upon in good faith by the citizens of Oakbrook Park and this administration.

Mr. President,

I have some observations relative to the committee assignments that I would like to read into the record.

There are five major committees that regularly conduct the business of this council. These committees are significant either because of the volume of ordinances with which they deal, or as in the case of the Annexation Committee because of the extreme importance of the issues before them.

There are twenty-five appointive positions on these five committees and with eight council people to choose from, since the President does not serve; it would seem that each council person would be appointed to at least three of these committees, and further that each party would, if possible because of percentage representation, be represented on each of the key committees. The rational behind this is that this country, this state, and up to now this city has a representative form of government. To deny the minority party representation on the key committees is to deny a significant segment of this community of the representation that they selected in the last city election. I do not believe that this is fair to the community nor wise politically.

DATE 1/9/79 MADE A MATTER OF RECORD
BY CHARLES W. WICKMAN CITY CLERK

The majority party by reason of their majority on the council, have all of the major committee chairmanships and the presidency, positions of considerable significance particularly in determining when and if certain ordinances will be presented for consideration. One would think that this advantage together with the superior numbers that the majority party possesses on this council would make them confident of their control. Apparently this is not the case because the President in using his new found appointive power, ignored the elected representatives of one-third of this entire city and the total Republican Party in the important areas of zoning and annexation.

The Congress of the United States, both the Senate and the House of Representatives, and even the Indiana General Assembly, in spite of their policy of loading committees in favor of the majority, does provide minority representation on all of the major committees.

I call upon the President of this council to do the same by reassigning the committee positions to reflect the percentage membership that exists and to provide the minority party representation on each of the five major committees.

To do otherwise is to commit a heinous act of political discrimination.
